PRESS RELEASE

Subject: Launch of Mobile Application to cut delays in Submission of Police Verification Report

To reduce the time taken for Police verification, the Ministry of External Affairs has launched mPassport Police App for speedy submission of Police Verification Report (PVR) . The App would facilitate the field level verification officers to directly capture the PVR into the system digitally.

With the launch of this App, the need to download and print the physical Personal Particulars Form and questionnaire by the police would no longer be required resulting in paperless end-to-end digital flow of the Police verification process, further reducing the time required for completion of PVR, within the desired time limit of 21 days.

The actual implementation in Pune Passport Region will start soon in coordination with the Police authorities in the Pune Passport region (Pune, Satara, Sangli , Kolhapur, Solapur, Ahmednagar , Satara Districts).
